

ZO /
NATHAMON
KHANKHAYAN

I hold a bachelor's degree in architecture (5 years) from King Mongkut's Institute of Technology Ladkrabang (KMITL). Throughout my academic journey and professional experience, I have actively participated in various design-focused projects and have enjoyed working collaboratively within a team. My attention to detail, strong sense of modern architectural aesthetics, and ability to adapt to new challenges and diverse teams have been key strengths.

In previous professional roles, i have been working on construction documentation at Crone architect for 2.5 years and move to Cox architects for 9 months This role allows me to apply my attention to detail and organizational abilities to ensure the smooth ow of project information and documentation processes. By collaborating closely with the team, I contribute to maintaining standards and e client project coordination. I continue to expand my knowledge and skills in architectural practices and document control, further enhancing my professional capabilities within the end.

I'm passionate about design, visuals, grids, lines, patterns, color, and the small details that can enrich human life. I try to notice the subtle moments in everyday life and how thoughtful design can gently enhance them. I hope to contribute to work that brings care and meaning into people's routines, and to be someone who enjoys collaborating with others, helping create a team environment where everyone can enjoy the process together.

EDUCATION

King Mongkut's Institute of Technology Ladkrabang (2021)

- Bachelor of Architecture
- Graduated with Second Honor

2020 - 2021 / 1 Year	Project / Presentation / Graphic
2020 / 3 Months	Project / Yoga house / Portugal
2022 / 3 Months	Project / Sekisui house / The orchards
2023 - 2025 / 2.2 Years	Project / One circular quay / Circular quay, Sydney
2025 / 9 Months	Project / Precinct 75 / ST Peters, Sydney

EASY RICE DIGITAL TECHNOLOGY - THAILAND (STUDENT, PART-TIME) Involved in graphic design for Easy Rice, a startup focused on developing machine technology to assess rice quality in Thailand. Responsibilities included creating presentations, logos, and other visual materials to support the company's initiatives in the agriculture sector. Skills: Teaching · Graphic Design · Adobe creative suite
NAAD - KYOTO JAPAN (STUDENT, INTERN) A culturally inspired yoga house was designed for a competition project, integrating innovative elements while prioritizing functionality and aesthetics. The resulting architectural solution met the project objectives and showcased the firm's creative approach. Skills: Urbanism · Adobe creative suite · SketchUp · Rhino · AutoCAD
CRONE ARCHITECTS - SYDNEY, NSW (DESIGNER, FULL TIME) Collaborated with the team to prepare documentation for a large-scale residential project at The Orchards Norwest for the Development Application (DA). Necessary documents were gathered and organized in coordination with the mentor and team members, ensuring compliance with regulatory requirements. A comprehensive and well-prepared application was submitted for Sekisui. Experience Interior package: Working on interior package and marketing Skills: Residential · Adobe creative suite · Revit
CRONE ARCHITECTS - SYDNEY, NSW (DESIGNER, FULL TIME) Experienced in managing documentation, coordinating with teams, and producing detailed architectural drawings under the guidance of a lead architect across stages from design development to detailed design and construction documentation. Experience Pre-construction to construction stage - Document Controller: Established and managed the documentation delivery system for a high-profile residential project, ensuring timely and accurate delivery to clients. - Ceiling Details: Developed detailed ceiling plans and specifications from DD to DC stages, ensuring compliance with design and safety standards. - Waterproofing Plans and Details: Created comprehensive waterproofing plans and details at the DD stage, maintaining the integrity and durability of building structures. - Back of House Areas: Designed and coordinated back-of-house areas from DD to DC stages, focusing on functionality and operational efficiency. - Floor Finish Plans: Developed detailed floor finish plans for the penthouse level during the DD stage, enhancing both aesthetic and functional aspects of the project. - Area Calculations: Managed and calculated Gross Floor Area (GFA) and Net Sellable Area (NSA) from DA to DC stages, ensuring accuracy and regulatory compliance. - Site Visits: Conducted site visits at Circular Quay to verify that waterproofing and ceiling installations were completed in alignment with documentation. Skills: Residential · BCA · Revit · Aconex
COX ARCHITECTS - SYDNEY, NSW (DESIGNER, FULL TIME) As P75 is a large-scale project divided between Construction and HDA teams, I worked across both stages. I supported the team lead in delivering construction documentation to ensure compliance with regulatory standards and also prepared HDA stage documentation tailored to specific client requirements. Experience Construction Stage / AFC - Door Schedule: Continued development of the door schedule, ensuring all doors were accurately captured and documented. - Reflected Ceiling Plan (RCP): Assisted under the team lead to ensure ceilings were correctly specified and drawn, coordinated with mechanical, fire, and electrical team requirements. Pre-Construction Stage / Draft IFT - Door Schedule: Established doors and corresponding schedules to meet client , interior and mechanical requirements at for Draft IFT documentation. - Partition Plan: Set up partition plans and components to meet client , interior and mechanical requirements at for Draft IFT documentation. - Reflected Ceiling Plan (RCP): Prepared RCPs to meet client , interior and mechanical requirements at the Draft IFT stage. HDA Stage - Prepared documentation for building 6 7 & 8 to meet client and interior requirements at HDA stage. Skills: Residential · Adobe creative suite · Revit

01	AWARD	
2021	Project / Urban refugee housing	THESIS OF THE YEAR AWARD (TOY ARCH) THAILAND. Honorable Mention in Thesis of the Year Award 2021, issued by ASA (The Association of Siamese Architects Under Royal Patronage) and CDAST (Council of Deans of Architecture Schools of Thailand), September 2021

05	VOLUNTEERING	
2016	Project / Construction	CONSTRUCTION In 2016, when all the houses in Mea Jana village were ravaged by a devastating fire, I applied to join a volunteer group tasked with the responsibility of repairing the fire-damaged houses. This experience served as my initial introduction to the world of architecture design and left an indelible impression on me.
2019	Project / Hiking with Disabled Friends	SCHEMATIC UNIVERSAL DESIGN FOR DISABLED PEOPLE To facilitate an inclusive and accessible experience for disabled individuals in the 'Hiking with Disabled Friends' project at Khao Daeng, Prachuap Khiri Khan, I developed a comprehensive schematic universal design tool. This tool promotes equal participation, ensuring that individuals with disabilities can navigate comfortably and safely.
